European ID Card

The European ID card shows the results of cooperation of 6 countries involved in the Comenius project 'Les différences nous rapprochent' / 'Differences bring us closer'.

It enables a short trip to the countries of the project (Bulgaria, England, France, Poland, Romania and Turkey) and presents the work done by representatives of the countries during the project meeting in Poland. The posters created by the students present elements of culture, history, tradition and cuisine, which determine the cultural identity of the countries.
